Chicago, Illinois  
CENTRAL 7340

\*\*\* \*\*

... ACTIVITIES ...

\*\*\* \*\*

The Office of the Regional Administrator serves as the Administrator's personal representative in the region.

It exercises general leadership for all FDA activities within the region in relationships with other agencies of the Department, other agencies of the Government, and the public.

This office recommends and transmits recommendations for improving FDA programs in the region and the quality of FDA services.

Under general policy and technical direction of the branches and divisions in Washington as approved by the Office of the Administrator, the Office of the Regional Administrator administers the following FDA programs in the region: Section 32 Purchases, Direct Distribution, Food Stamp, School Lunch and School Milk.

It conducts the administrative management functions including personnel, fiscal, and administrative services.

It carries out the marketing reports activities, and is responsible for the supervision of market news, and secures proper investigations of FDA activities in the region as needed.

This Office recommends the appointment of and supervises the activities of FDA representatives on the State War Boards and keeps them currently informed of FDA policies and programs.

This Office also assumes other duties incident to new or existing programs as they are delegated from time to time by the Administrator.

Regional Administrator ..... Eral O. Pollock
